Gas Prices Hit Record High!

by Michael in New York on [8/15/2005 02:21:00 AM](#)

Nationwide average of \$2.53 per gallon! Thanks, President Bush! And thanks for that joke of an energy bill that gives gas companies fat with record profits even more TAX BREAKS but does nothing to end our dependence on foreign oil or -- God forbid -- do anything as simple as push car companies to increase gas mileage by even the smallest amount. Oh, and how's the vacation going?
