# Calling All Jedi!

Star Wars secrets  
unearthed  
BY MICHAEL GILTZ

**Our spies in the Rebel Alliance** have combed the cosmos to uncover the coolest secrets of the latest and last *Star Wars* flick. You probably know Anakin (Hayden Christensen) joins the Dark Side in this episode, *Star Wars: Episode III — Revenge of the Sith*. What you don't know, we're gonna tell you!

*Star Wars: Episode III — Revenge of the Sith* hits theaters May 19.

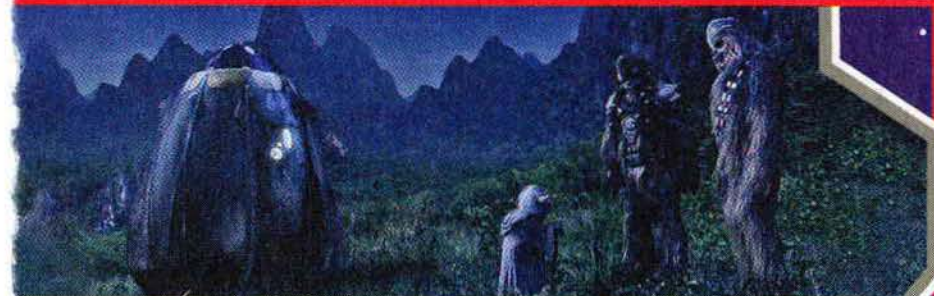

**Will this be the last *Star Wars* movie?** It appears that way. George Lucas once planned on nine films, but decided to make only six and to focus on Darth Vader.

**Watch *Star Wars: Clone Wars*, the Cartoon Network's animated series, to see Anakin become a Jedi Knight.**

**Get clued in on your fave characters! ● ●**

**Chewie is back!** Yes, Chewbacca, Han Solo's furry friend shows up in *Sith*. He's even played by the same actor, Peter Mayhew. And we get to see his home planet, Kashyyyk. (Try saying that three times fast!)

**Who's better with a lightsaber** — Anakin or Obi-Wan (Ewan McGregor)? "Anakin's the most powerful Jedi around," says Justin Lambros, who worked with Hayden. But "Obi-Wan is fast and never makes a mistake." Guess you'll have to wait till the finale, when the two battle it out on the volcano world of Mustafar.

**Keep an eye out** in *Episode III* for a cameo by George Lucas — the *Star Wars* creator finally appears in one of his movies! George shows up as Baron Papanoida — will you recognize him?

**What is Darth Vader made of?** You know of the darkness within him, but beyond that? The people who created the armor say the suit is made of silicone and fiberglass. Not so scary now, huh?!

**The men who play R2-D2 and C-3PO**

are the only actors to appear in all six flicks!

**Yoda gets digital!** The Jedi Master — talks backward, he does — first showed up in *The Empire Strikes Back*. Back then, he was a puppet voiced by Frank Oz. Now, Yoda's completely digital! Frank still creates the voice, but the rest of Yoda comes from a computer.

### Can't wait for the movie premiere? Get some video game relief!

**Star Wars: Episode III — Revenge of the Sith — The Video Game** features 13 minutes of footage shot for the film, including opening scenes on the flagship of General Grievous and the finale on Mustafar!

The game also has scenes that didn't make it into the final movie: "One major action sequence was shot for the film in the generator room," says Justin Lambros, who worked on the game. "They had to
